

CORE**NEW****A+****Roll Call: Confrontational Handcuffing**

057-0108 / 30 minutes

If a subject becomes uncooperative, handcuffing becomes a very difficult task. Confrontational handcuffing addresses those situations where the subject initially behaves in a cooperative manner but then decides to resist as the handcuffs are going on. Safe handcuffing has just as much to do with knowing when not to handcuff as well as what to do when the offender is trying to turn the handcuffing process into a fight.

NEW**A+****Inside the Breach, Part 2**

111-0108 / 30 minutes

The close-quarters environment represents the most common and the most dangerous environment faced by law enforcement. Compressed distances, compressed time frames, and rapid decisions are the deadly characteristics of the "typical" environments faced by patrol officers every day when they make contact with suspects closer than 25 yards. This course is designed to provide an understanding of skills needed for maximum performance under the demands of close-quarters situations.

A+**Roll Call: Compartmental Searches**

057-0107 / 30 minutes

Drug smugglers are constantly adapting their methods in order to evade police detection. This course examines the tools and methods currently being used to search passenger and commercial vehicles. We identify common contraband concealment containers and identifiers of drug courier vehicles as well as the legalities and procedural use of K-9 units.

A+**Juvenile Corrections**

111-0107 / 30 minutes

This course discusses how and why juvenile offenders develop differently than non-offenders, how corrections officers can better supervise juvenile offenders, and techniques for dealing with violent juvenile offenders. The course further covers detection and prevention of juvenile offender suicide attempts and looks at programs available to help juvenile offenders reintegrate into society after release from a detention facility.

SUPPORT**A+****Tactical Patrol: High Visibility Patrol**

163-0012 / 30 minutes

This lesson is the second of a two-part series on patrol strategies and tactics. Part one focused on aggressive patrol and crackdowns as well as order maintenance policing. In part two, other patrol strategies and tactics are discussed, including high visibility patrol, saturation patrol, directed patrol, foot patrol, and hot spots. The purpose of this two-part series is to provide officers with an understanding of strategies that can be utilized during uncommitted time, when they are not answering calls for service or performing other activities.

A+**Tactical Thinking: Mind Over Body**

111-0001 / 30 minutes

Tactical thinking drills provide officers a safe opportunity to think critically through scenarios and develop experiences to draw from when facing a real-life situation. This course, the first in a seven-part series, discusses tactical thinking, decision-making processes during a threat, and the natural response of the officer's mind and body during stress. The mental phenomenon of tunnel vision is also highlighted to further emphasize the importance of ongoing training.

A+**Traffic Stops and Racial Profiling: Citizen Rights**

111-0013 / 30 minutes

Traffic stops are among the most common interactions between the public and the police. Unfair and illegal practices such as discriminatory profiling can have a major negative impact on the public perception of law enforcement. This series examines the practice of racial profiling as it relates to traffic stops. Part four of six, this course discusses the constitutional and citizen rights that should be considered when officers conduct traffic stops, including a citizen's reasonable expectation of privacy and equal protection under the law. Significant court cases and decisions that affect the policies and procedures of traffic stops are also explored.

A+**Roll Call: Confronting the Suicide Bomber: Determining Agency Policy**

057-0106 / 30 minutes

Suicide bombers have a history dating back to the well-known attacks in the Middle East during the 1980s. United States government officials speculate it is only a matter of time before suicide bombers attack on American soil. Are you prepared to identify a suicide bomber? Are you clear on your agency's policies and procedures for handling such a suspect? This course explores the history of suicide bombers, including their reasons for volunteering and their typical methods used to carry out missions. Discussion also covers the "shoot in the head" policy put forth by International Association of Chiefs of Police and the subsequent debate on how local agencies should define their policies and procedures.

A+**Med Aid, Part 2: Heat-Related Incidents and Domestic Violence**

040-0006 / 30 minutes

This course covers special medical issues for first responding police officers. Originally designed for emergency medical technicians, this training is important for anyone who may have to work with a trauma victim until medical personnel arrive. This course looks at heat-related incidents and domestic violence.

A+**Tire Tread and Tire Track Evidence**

160-0012 / 30 minutes

Tire tread evidence is one of the most often ignored pieces of evidence at crime scenes. This usually stems from lack of proper training in the recognition and preservation of this type of evidence. Renowned impression expert William Bodziak lends his knowledge and expertise to present the proper way to photograph and cast footwear and tire impression evidence.

A+**Violent Offenders Analysis, Part 5: Know Your Enemy**

179-0122 / 30 minutes

What you find at the scene of a violent crime will tell you a lot about the person who committed the crime. To know your enemies, you must study what they do. In fact, offenders often leave messages for the investigator.
