

**CORE****NEW** **A+** **Terrorist Preparedness: Critical Incident Management**

111-0207 / 30 min

This is the first in a series of training videos developed to assist the first responders of Montgomery County prepare for critical incidents. This program will illustrate the Montgomery County Incident Management System, explaining how the Montgomery County system supports the National Incident Management System, as prescribed by Presidential Directive. Their example can be adapted and applied in most regions.

**NEW** **A+** **Roll Call: The Schertz, Texas, Shootout**

057-0207 / 30 min

A stretch of Interstate in Schertz, Texas, was the recent site of a dramatic roadside shootout when an assailant used an AK-47 assault rifle and a handgun to open fire on Officer Richard Kunz during a traffic stop. In this month's Roll Call, Officer Kunz recounts the events of that night and talks about the training that saved his life.

**A+** **Calibre Presents Roll Call: Ethical Decision Making in Law Enforcement, Part 1**

057-0206 / 30 min

Law enforcement is under constant scrutiny, and officers are expected to act in an ethical manner at all times. Ethical dilemmas arise throughout an officer's career; therefore, regular and intensive training must be carried out to provide the officer with a decision-making framework. This course, Part 1 of a two-part series, discusses ethics, integrity, and ethical decision-making frameworks. The negative effects brought about by unethical actions are discussed in the context of the officer, the department, and the officer's family.

**A+** **Tactical Thinking: Traffic Stops**

111-0002 / 30 min

Tactical thinking education and drills provide officers a safe environment in which to think critically through scenarios. Practicing tactical thinking is essential to

officer safety and provides experiences for the officer to draw upon during a real-life situation. This course discusses tactical thinking and how it relates to the procedures for conducting a traffic stop. Traffic stops may be a routine procedure, but officers should never treat them as such.

**A+** **Calibre Presents Roll Call: Duty Weapons Safe at Home**

057-0205 / 30 min

Police officers are well aware of their responsibilities when it comes to protecting their duty handguns from negligent or improper use. Too often, however, many officers seem to forget or ignore these lessons once they arrive home from work and cross the threshold into the safety of their homes. This course looks at ways to assist officers, so they may succeed in keeping themselves and those around them safe on the streets and in their homes as well.

**SUPPORT****NEW** **A+** **Traffic Stops and Racial Profiling: Officer-Motorist Interaction**

111-0014 / 30 min

Traffic stops are among the most common interactions between the public and the police. Unfair and illegal practices such as discriminatory profiling can have a major negative impact on the public perceptions of law enforcement. In this course, we identify methods to more effectively communicate with the public during traffic stops and identify ways to minimize conflict and maximize cooperation.

**A+** **GIS: Providing the Foundation for Real-Time Intelligence, Part 1**

405-0706 / 30 min

Imagine having the floorplan of a large bank at the fingertips of law enforcement officers before responding to a robbery, the most direct route for firefighters to a wildfire, or a graphical representation of the most likely terrorist targets within a given geographical radius. Sound like science fiction? Not anymore. GIS (Geographic Information System) technology provides first responders with real-time intelligence data in the form of maps, floor

plans, photographs, and much more. Join us as we explain the basics of how this new technology works. This course also profiles Wilson, N.C., a growing city that has implemented GIS technology to make quicker, more informed decisions about how to prepare and respond to disasters.

**A+** **Tactical Patrol: Active Killer**

163-0014 / 30 min

While operating as a police officer, you may be required to immediately respond to an ongoing critical incident at a school, workplace, or other environment. Should the incident involve a person or persons who are barricaded and/or holding innocent people as hostages, the established law enforcement guidelines should be employed. This course examines methods of response and how you can effectively put an end to such an incident.

**A+** **Corrections Digest 3: Stress Reduction and Improving Officer Morale**

186-0057 / 30 min

This month, we examine the critical issues of stress reduction and morale improvement among corrections workers, as well as the role of the correctional employee as first responder.

**A+** **Corrections Digest 4: Control**

186-0059 / 30 min

Control is a key element of your job. Whether you are controlling the inmates, controlling your suspects, or controlling situations, when you lose control, you lose the advantage. Verbal judo creator Dr. George Thompson shows how your mouth may be your best weapon, and Lt. Gary Klugiewicz outlines a disturbance resolution model that will keep you in control.

**A+** **Bullet Ricochet Phenomena, Part 1**

160-0001 / 30 min

In this first of two half-hour programs on Bullet Ricochet Phenomena, the conditions under which ricochets are produced are examined and discussed. Also, we define angle of impact versus critical angle.
