A+	Ethical Decision Making in Law Enforcement, Part 1	057-0206	30 minute video plus course materials	Law enforcement is under constant scrutiny, and officers are expected to act in an ethical manner at all times. Ethical dilemmas arise throughout an officer's career; therefore, regular and intensive training must be carried out to provide the office with a decision-making framework. This course, part one of a two-part series, discusses ethics, integrity, and ethical decision-making frameworks. The negative effects brought about by unethical actions are discussed in the context of the officer, the department, and the officer's family. Part two of this series (EDA 057-0306) discusses ethical dilemmas and takes the learner through the ethical framework to aid in the decision-making process.
A+	Officer Ambushed—The Mike Sawyer Incident	057-0105	30 minute video plus course materials	Uniformed and identifiable law enforcement officers risk being ambushed on a daily basis. Sterling Heights, Michigan, police officer Mark Sawyer is a prime example. Officer Sawyer was murdered in an unprovoked ambush while sitting in his patrol car filling out paperwork. His killer wanted the officer's service weapon to commit a bank robbery. This course shows officers how to keep from becoming an easy ambush target
A+	Interview and Interrogation, Part 4 of 4: Special Populations	160-0905	30 minute video plus course materials	Interviewing and interrogating special members of the population require extra attention from law enforcement. Whether it is dealing with a language barrier, the mental capacity of the suspect, or a hearing or speech impairment, your department needs to be able to handle any situation that arises. This course examines how you can effectively interview or interrogate these people.
A+	No Regard for Human Life, Part 2: The Trooper Stone Shooting	057-1106	30 minute video plus course materials	This course, the second of a two-part series, examines a dramatic event that unfolded in Tyler, Texas. A Texas State Trooper is gunned down on a traffic stop, and a rolling gun battle with automatic rifle fire ensues. In part one, Trooper Steve Stone took us through the events of that night and how he survived being shot point-blank in the chest. In part two, we ride with the Tyler police officers who pursued the gunmen through the streets of their city, even in the face of withering high-powered rifle fire.
A+	Motor Vehicle Theft, Part 3: Motorcycles and Heavy Equipment	888-0244	30 minute video plus course materials	Investigating motor vehicle theft is more than just looking for stolen cars. Stealing motorcycles is profitable, and the theft of heavy construction and farm equipment is a multibillion dollar business. This course gives you the tools you need to make positive identification of questionable motorcycles and how to identify stolen heavy equipment.
A+	Less-Lethal Force, Part 3: TASER Update	163-0019	30 minute video plus course materials	In this course, Steve James looks at electro-muscular disruption systems (M26 and X26 TASERs), which have been proven safe and effective in dealing with many of the situations that lead to officer and suspect injuries. Join us as we also take a look at the history of electronic incapacitation devices and the protocols associated with their use.
A+	Corrections Digest: Corruption Continuum	186-0086	30 minute video plus course materials	Law enforcement administrators do not get fired because of crime rates; they get fired for scandal. A law enforcement agency does not become corrupt overnight. Research shows it is a gradual process with clearly defined steps along the way. Neal Trautman, director of the National Institute of Ethics, outlines the four phases of the corruption continuum and explains how you can keep your department on the right track.
A+	Bloodstain Pattern Analysis in Crimes of Violence, Part 1	160-0006	30 minute video plus course materials	This course looks at recent techniques in collecting and processing blood pattern evidence and the use of these techniques to best conduct a criminal investigation.
A+	The Mentally Ill Person in Crisis: Strategic Verbal Responses	056-1205	30 minute video plus course materials	Answering a call involving a person in a mental health crisis can be dangerous, especially if the officer has no training in crisis intervention. What should an officer do or say when responding to a call involving a person who is hallucinating, delusional, catatonic, or experiencing a psychotic episode? In such a situation, the officer's regular training in how to utilize his or her command presence could actually make the situation worse. Join us for an informative discussion of some of the behaviors an officer may encounter when dealing with an individual who is mentally ill. Common scenarios are also presented along with strategies for managing potentially violent situations involving the mentally ill.
A+	Simulations and Marking Cartridge Safety	057-0405	30 minute video plus course materials	There may come a time when your agency will utilize one of the many firearms simulations or marking cartridge products on the market. Because the use of these systems involves the simulated use of real-time actions and violence, as well as the use of real, but modified firearms, very detailed safety guidelines must be established and followed. This course highlights procedures for safe operation.
