

CORE

Calibre Presents Roll Call: Commercial Vehicle Searches

057-0307 / 30 min

Drug smugglers are constantly adapting their methods in order to evade police detection. This course will examine the tools and methods currently being used to search commercial vehicles. We will identify common contraband concealment containers and identifiers of drug courier vehicles as well as the challenges of searching large commercial vehicles.

Policing Extremists

111-0307 / 30 min

On a daily basis, law enforcement officers come in contact with members of extremist groups. Most of the time, these encounters are ended without incident. However, when an extremist chooses to create a conflict with law enforcement, it can lead to violence, serious injury, and in some cases, death to the officer. In some cases, the extremists encountered by law enforcement may be bent upon committing acts of domestic terrorism. This course will discuss the correlation between extremism and domestic terrorism and what dangers are present for law enforcement officers each time they deal with a member of an extremist group. Additionally, identification of members of an extremist group as well as how to diffuse potentially violent confrontations with them will also be presented.

Calibre Presents Roll Call: Ethical Decision Making in Law Enforcement, Part 2

057-0306 / 30 min

Law enforcement is under constant scrutiny, and officers are expected to act in an ethical manner at all times. Ethical dilemmas arise throughout an officer's career; therefore, regular and intensive training must be carried out to provide the officer with a decision-making framework. This course, Part 2 of a two-part series discusses ethical dilemmas and takes the learner through the ethical framework to aid in the decision making process. Part 1 (057-0206) discusses ethics, integrity, and ethical decision-making frameworks.

Tactical Thinking: Traffic Stops – Environmental Concerns

111-0003 / 30 min

When making a traffic stop, the officer is often focused on the reason for the stop and the occupants of the vehicle. To maintain safety, another important element must be constantly considered: the safety of the surrounding environment. Because of rising environmental safety concerns, the IACP Highway Safety Committee and multiple police agencies have partnered with NHTSA to establish the Law Enforcement Stops and Safety (LESS) Subcommittee. This course examines tactical thinking as it relates to the environmental safety of officers during traffic stops. The purpose, composition, and focus of LESS will be emphasized.

SUPPORT

Traffic Stops and Racial Profiling: Minimizing Conflict

111-0015 / 30 min

Traffic stops are among the most common interactions between the public and the police. Unfair and illegal practices such as discriminatory profiling can have a major negative impact on the public perception of law enforcement. This series examines the practice of racial profiling as it relates to traffic stops. In Part 6 of the series, we will walk you through several scenarios that help identify the proper verbal approach on a traffic stop. We will identify both the right actions that can help you minimize any possible conflicts while maximizing cooperation with a motorist.

Bullet Ricochet Phenomena, Part 2

160-0002 / 30 min

In this second of two half-hour programs on bullet ricochet phenomena, other ricochet characteristics are explained including directionality, the V mark, and the pear effect.

GIS: Providing the Foundation for Real-Time Intelligence, Part 2

405-0707 / 30 min

GIS is a critical component of a sustainable planning process to establish terrorist prevention and mitigation strategies, effective response capability, expedient recovery and analyzing potential threats. This course examines technological solutions that make GIS applications readily available in times of disaster and explains how GIS applications play a vital role in disaster mitigation.

Drug Raid Planning

163-0305 / 30 min

Drug raids are among the most dangerous operations that you will undertake as a law enforcement officer. Preparation and planning are essential for a successful and safe raid. This course will take an in-depth look at how to plan and execute a drug raid.

Recognizing Fraudulent Identification Documents

179-0167 / 30 min

Today's computer technology affords the criminal/terrorist element with easy access to develop fraudulent identification and security documents. Join us as we learn what to look for and the government resources available to the investigation.

Corrections Digest 5: Communications Skills and Tactical Training

186-0060 / 30 min

According to Joe Clark of the Collin County, Texas, Sheriff's Department, if you use all five of your senses in dealing with inmates, you'll develop a sixth sense that will aid you in your job. PPCT staff instructor Darrell Ross also demonstrates the transport wrist lock effective against low-level and high-level resistance.

Patrol Awareness: Recognizing Possible Suspects

888-0220 / 30 min

There is an enemy within the sea of people that officers observe every day. Who are the suspects and how might they be identified? What targets are they after and what is their ultimate goal? Join us as we examine the benefits of tactical thinking and observation.
