Tested	SHOW TITLE	SHOW #	LENGTH	SYNOPSIS
<b>A+</b>	<b>Crimes Against Children: Liability</b>	111-0310	30 minute video plus course materials	A crime against a child can be one of the most difficult cases to investigate. If your department fails to take the proper steps, you could be held liable. This course examines the steps you can take to avoid being sued as well as how to respond to claims of child abuse and neglect.
<b>A+</b>	<b>Roll Call: Ethical Decision Making in Law Enforcement, Part 2</b>	057-0306	30 minute video plus course materials	Law enforcement is under constant scrutiny, and officers are expected to act in an ethical manner at all times. Ethical dilemmas arise throughout an officer's career; therefore, regular and intensive training must be carried out to provide the officer with a decision-making framework. This program, part two of a two-part series, discusses ethical dilemmas and takes the participant through the ethical framework to aid in the decision-making process. Part one (057-0206) discusses ethics, integrity, and ethical decision-making frameworks.
<b>A+</b>	<b>Bloodstain Pattern Analysis in Crimes of Violence, Part 2</b>	160-0007	30 minute video plus course materials	This course further develops the techniques for using bloodstain evidence to determine the positions of people in crime scenes and the type of events involved. The relationship between points of convergence and points of origin for bloodstains associated with a certain dynamic is discussed. The use of "stringing" to locate points of origin for bloodstains is also presented.
<b>A+</b>	<b>Crisis Intervention Training: Dealing with the Mentally Ill, Part 1 of 2</b>	056-1105	30 minute video plus course materials	Responding to individuals in serious mental health crises has proven problematic for the law enforcement profession. Many officers and mentally ill individuals have been injured, resulting in one of the most litigious areas of law enforcement today. This course examines some of the tactics and techniques that have been proven to help de-escalate these difficult and potentially dangerous situations.
<b>A+</b>	<b>Roll Call: Compartmental Searches</b>	057-0107	30 minute video plus course materials	Drug smugglers are constantly adapting their methods in order to evade police detection. This course examines the tools and methods currently being used to search passenger and commercial vehicles. Also discussed are common contraband concealment containers and identifiers of drug courier vehicles and the legalities and procedural use of K-9 units.
<b>A+</b>	<b>Roll Call: Concealed Carry Tactics for Off-Duty and Plainclothes Officers</b>	057-0208	30 minute video plus course materials	Whether working plainclothes, undercover, or carrying off duty, police officers who are carrying firearms concealed on a daily basis must have a solid understanding of the concepts of concealment and the tactics that are practical when deploying a handgun from concealment. Through a systematic methodology, officers will be exposed to new skills.
<b>A+</b>	<b>Roll Call: Police Use of Force, Part 1</b>	057-0406	30 minute video plus course materials	This course is the first in a three-part series that explores police use of force. Part one identifies three areas that impact police use of force and the current issues to consider when developing use of force policies. In addition, appropriate training and investigation techniques targeted at use of force procedures are discussed.
<b>A+</b>	<b>Roll Call: Response to Armed Robbery</b>	057-0407	30 minute video plus course materials	This course discusses the various types of armed robbery and how each may affect the officer's response. Invisible deployment is explained, as well as its importance for officer safety and response purposes. Various techniques for confronting subjects who have been identified as suspects leaving the scene of a robbery are explained, as well as how an officer should respond to an armed robbery while off-duty. Procedures for officers to follow if confronted with a hostage situation as a result of an armed robbery are also discussed.
<b>A+</b>	<b>Roll Call: Officer Hostage</b>	057-0408	30 minute video plus course materials	Law enforcement officers may fall victim to a hostage taking that results from a pre-planned attack or a crime in progress where a suspect is surprised. The hostage taking may occur after an ambush or just by the officer being in the wrong place at the wrong time. No matter what the nature of the hostage taking, there are specific tactics that the hostage officer can use in order to help resolve the situation. Also covered in this course are ways in which an officer can stay out of a hostage situation while on duty.
<b>A+</b>	<b>Roll Call: Crime Scene Response and Protection</b>	057-0508	30 minute video plus course materials	The responding officer has many considerations when responding to a violent crime call. Officer safety is foremost, followed by victim, witness, and bystander safety. After safety issues, protection of the crime scene becomes a primary task. This course reinforces these safety lessons and helps make the officer aware of his or her surroundings.
<b>A+</b>	<b>Tactical Thinking: Traffic Stops—Environmental Concerns</b>	111-0003	30 minute video plus course materials	When making a traffic stop, the officer is often focused on the reason for the stop and the occupants of the vehicle. To maintain safety, another important element must be constantly considered—the safety of the surrounding environment. Because of rising environmental safety concerns, the IACP Highway Safety Committee and multiple police agencies have partnered with NHTSA to establish the Law Enforcement Stops and Safety (LESS) subcommittee. This course examines tactical thinking as it relates to the environmental safety of officers during traffic stops. The purpose, composition, and focus of LESS will be emphasized.
