

CORE

A+ **CSI, Part 2 of 2: Bloodstain Pattern Analysis in Crimes of Violence**

NEW 160-0007

This lesson further develops the techniques for using bloodstain evidence to determine the positions of persons in crime scenes and the type of events involved. The relationship between points of convergence and points of origin for bloodstains associated with a certain dynamic is discussed. The use of "stringing" to locate points of origin for bloodstains is also presented.

A+ **Roll Call: Confined Area Survival Tactics, Part 1 of 4**

NEW 176-2167

Phil Messina of Modern Warrior joins us to present a program in Confined Area Safety/Survival Tactics (CAST) that literally teaches you how to win a fight when space isn't available to maneuver. In this first installment, we are presented with the science of influencing physical motion and high-risk physiokinetics.

A+ **Narcotics Investigation, Part 2 of 2: Reversals**

NEW 179-0127

In part two of our narcotics investigation series on reversals, we'll discuss important considerations in both long-term and short-term planning for reversal operations. We'll also look at specific areas of responsibility for operation participants.

SUPPORT

NEW **Calibre Presents Roll Call: Simulation Training Safety**

A+ 057-0405

There may come a time when your agency will utilize one of the many firearms simulations or marking cartridge products on the market. Because the use of these systems involves the simulated use of real time actions and violence, as well as the use of real, but modified firearms, very detailed safety guidelines must be established and followed. This Roll Call will highlight procedures for safe operation.

NEW **Legal Update: Special Interest Aliens**

164-0405

A+ Since Sept. 11 2001, every officer in the country has been on alert for the next terrorist attack. Determining who is a potential threat is no easy task. Knowing what to look for and what to ask is crucial for every officer on the street. This program, in conjunction with the United States Department of Immigration and Customs Enforcement, will show investigative techniques to law enforcement officers that will help you determine if an alien from a special interest country potentially poses a terrorist threat to the United States.

A+ **Digital Crime Single-Scene Seizures**

NEW 152-0002

This program outlines current procedures for searching and seizing evidence from a single location crime scene. It covers search warrants for electronic evidence and details recognition and specific identification of potential electronic evidence. It concludes with documentation, collection, preservation, transportation, and storage of seized evidence.

A+ **Legal Update: U.S. v. Drayton—Consent Searches**

NEW 165-0002

Police board a city bus for routine drug and interdiction. As they move down the aisle, they tell people riding the bus they are looking for drugs and weapons, asking the commuters if they had any illegal items in their bags. Several passengers are asked if they can be searched. After their consent, cocaine was found on two individuals and arrests were made. Do the police have to advise individuals of their right to refuse consent searches? Find out from this compelling program.

CLASSIC

A+ **Domestic Violence Interviewing Children**

NEW 179-0135

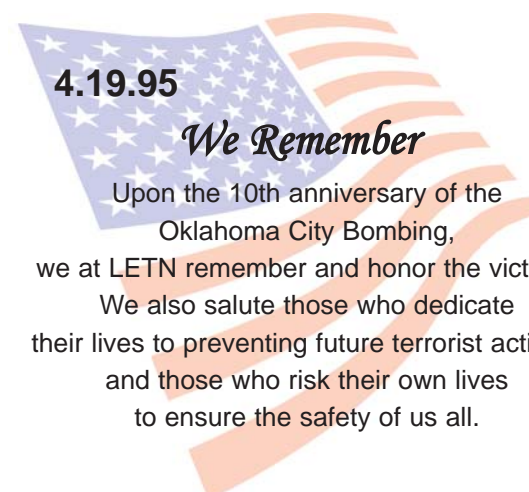

Domestic violence isn't limited to adults. Children are also psychological and physical victims. In this program, find out how to interview and deal with these very fragile eye and ear witnesses to this crime.

HOMELAND SECURITY

A+ **Homeland One Preparedness Level: Protection of Potential and Actual Crime Scenes, Part 1 of 2**

NEW 947-1106

This course covers the understanding and implementation of procedures for the protection and preservation of crime scenes at WMD and hazardous materials events. This course includes a primer in the roles of Federal agencies related to a WMD event.
