Tested	SHOW TITLE	SHOW #	LENGTH	SYNOPSIS
A+	NEW Crimes Against Children: Investigation	111-0710	30 minute video plus course materials	A crime against a child can be one of the most difficult call you ever receive. What you do at the scene could drastically affect whether the truth is discovered and the perpetrator apprehended. This course examines what you should and should not do when investigating a crime against a child.
A+	Large Vehicle Bombs: Post-Blast Investigation, Part 3	162-0003	30 minute video plus course materials	The purpose of any crime scene investigation is to figure out what happened, identify who committed the offense, and present evidence at trial that results in a conviction. In the event of a large vehicle explosion like the one that killed 168 people at the Murrah Federal Building in Oklahoma City, you must manage a massive crime scene. We return to the FBI's Large Vehicle Explosive Device Post Blast Investigators training at Fallon Naval Air Station in Nevada, where students learn to investigate a large vehicle explosion. We examine proper crime scene documentation, diagrams and sketches, and recording and collecting evidence.
A+	Cold Case Investigations: Perseverance	179-0147	30 minute video plus course materials	The Naval Criminal Investigative Unit formed an elite organization a few years ago to solve cold murder cases. This organization is called the Cold Case Homicide Unit. "Perseverance" is a 30-minute program that showcases a particular cold case and how this homicide unit solved the case.
A+	Unspoken Dialogue, Part 1: Body Signs	179-0140	30 minute video plus course materials	Regardless of where people come from or what language they speak, they send a very clear message to us without uttering a sound. In this course, we will look at the position of a person's body and the placement and use of the arms, legs, head, and eyes as behavioral clues beyond the conversation taking place in front of us. If we can interpret these body messages, it will affect our ability to understand.
A+	Survival Considerations for Female Officers	179-0142	30 minute video plus course materials	Women have been serving as sworn officers for nearly a century. But only recently have law enforcement agencies begun to examine the impact of gender differences on job performance. Twenty-year law enforcement veteran and training consultant Kat Kelley looks at some of the equipment and training issues addressing officer safety.
A+	Conducting Traffic Stops, Part 2	163-0003	30 minute video plus course materials	This course focuses on the importance of a complete traffic stop, traffic stop techniques, and officer safety.
A+	Wilderness Series, Part 2: Tactical Tracking	185-0131	30 minute video plus course materials	This course provides pertinent information on aggressive man-tracking techniques leading to the recovery of armed and dangerous fugitives operating in remote areas.
A+	Management vs. Leadership	111-0807	30 minute video plus course materials	Many people believe that management and leadership are two sides of the same coin. But the reality is that while they have similarities, they are in fact very different. This course looks at the characteristics of management and then turns to the characteristics of leadership to show the differences. Finally, the two sides come together and focus on the requirement for both skills that are found in a successful leader.
A+	Roll Call: Suicide by Cop	057-4005	30 minute video plus course materials	This course looks at pre-incident indicators of potential suicide-by-cop events based on hundreds of incidents studied by the Los Angeles County Sheriff's Department. Specific tactics to use by the law enforcement officers in response to the indicators are presented. The media reaction to law enforcement when the suicide-by-cop subject used a toy or replica weapon to provoke the incident is also discussed
A+	Roll Call: Officer Down, Part 1	057-4007	30 minute video plus course materials	It is the most hated call of all. When this call comes in, the entire department goes into "condition red." This course looks at officer down from the point of view of an officer gunned down during a "routine" traffic stop. His immediate reactions and his will to live made the difference. He kept telling himself, "I will survive, I will survive." He did, and we tell you about it.
A+	Homeland Security Awareness Level Training: Course I: Introduction to Homeland Defense	947-1001	30 minute video plus course materials	In Course I of our Awareness Level training, we introduce the first responder to the broad concept of homeland security and his or her role in this new world. Familiar concepts of WMD and Incident Command are brought together under a unified approach to terrorism preparedness (and preparedness for any large-scale, multi-agency incident).
