AUGUST 2008 - TRAINING CALENDAR

Tested	SHOW TITLE	SHOW #	LENGTH	SYNOPSIS
A+	Roll Call: Pistolcraft—New Paradigm Tactics and Techniques	057-0807	30 minute video plus course materials	In this course, the integrated Duty Pistol Training Course (DPTC) concept is examined and the approach and components of each of the four levels are individually described. In addition, we explore how these modules are designed as stepping stones, one leading to the next, in a series of interconnected courses of fire that lead the participant from a basic to advanced level of performance
A+	Management vs. Leadership	111-0807	30 minute video plus course materials	Many people believe that management and leadership are two sides of the same coin. But the reality is that while they have similarities, they are in fact very different. This course looks at the characteristics of management and then turns to the characteristics of leadership to show the differences. Finally, the two sides come together and focus on the requirement for both skills that are found in a successful leader.
A+	Roll Call: Ten Behaviors That Could Cost You Your Badge	057-0806	30 minute video plus course materials	Law enforcement personnel are constantly facing situations that test their personal values and moral character. As an enforcer of what is right and wrong, you are expected to adhere unquestioningly to the standards that you enforce. So, in the eyes of the law, which personal behaviors are acceptable, and which are not? This course outlines 10 behaviors that will absolutely cost you your badge, reviews the governing bodies that have authority over officers, and identifies the standards for commissioning and licensing a peace officer as well as the standards for decertification.
A+	Cold Case Files	111-0806	30 minute video plus course materials	This course takes a realistic look into the makeup of a cold case squad and the personal characteristics that help cold case detectives solve old cases. The course also reviews the challenges that must be overcome in order to reopen cold cases and discusses current resources that investigators use to solve old homicides.
A+	Roll Call: Officer Down, Part 1	057-4007	30 minute video plus course materials	The officer down call is the most hated call of all. When this call comes in, the entire department goes into "condition red." In this course, we look at officer down from the point of view of an officer gunned down during a "routine" traffic stop. His immediate reactions and his will to live made the difference. He kept telling himself "I will survive." He did, and we tell you about it in this compelling course.
A+	Roll Call: Pre-attack Behavioral Indicators	057-4010	30 minute video plus course materials	Have you ever been on a call when "gut instinct" told you that an assault was about to occur, and sure enough, it did? That feeling was not created out of thin air; you subconsciously recognized "pre-indicators" the subject was giving off just before he or she attacked you. This course will help you recognize indicators that an assault is about to occur so you can plan options and strategies for defense.
A+	Violent Offenders Analysis, Part 4: Escalation of Violence	179-0121	30 minute video plus course materials	The violent offender usually starts out with mundane fantasies that escalate over time. In this course, SSA Alan Brantley of the FBI National Center for the Analysis of Violent Crimes explains the escalation of violence with case studies to illustrate his points.
A+	Hostage Negotiations, Part 2	197-0188	30 minute video plus course materials	Community relations improve dramatically when you organize and maintain a Citizen Police Academy (CPA). This course offers guidelines on applicant requirements, CPA budget, curriculum, liability, ride-along programs, graduation ceremonies, and other issues. People in your town will appreciate your goodwill and professionalism as reflected in the way you manage your CPA.
A+	Wilderness Series, Part 4: Tactical Rappelling	185-0132	30 minute video plus course materials	The primary role of a tactical team is to provide specialized support in any situation where the advanced capabilities of the team are necessary to conduct tactical operations in a high-risk environment. Join us as we look at the "art of the rope" in learning how to anchor and negotiate obstacles to further the mission.
A+	Drug Raid Planning	163-0305	30 minute video plus course materials	Drug raids are among the most dangerous operations that you will undertake as a law enforcement officer. Preparation and planning are essential for a successful and safe raid. This course takes an in-depth look at how to plan and execute a drug raid.
A+	Roll Call: Body Armor—Protecting the Protectors	057-4002	30 minute video plus course materials	You know you should wear your body armor every day for the protection it offers. In this course, you will meet an officer whose body armor saved him from a projectile of unbelievable proportions. Deputy Frank Hernandez is alive today only because his protective vest deflected the object away from his vital organs. This is an inspiring tale of survival that you will never forget.
