

AUGUST 2009 - TRAINING CALENDAR

| Tested | SHOW TITLE | SHOW # | LENGTH | SYNOPSIS |
|-----------|--|----------|---------------------------------------|---|
| A+ | Legal Update: Pursuit Driving | 111-0809 | 30 minute video plus course materials | Liability from police pursuits is a significant issue for police officers and departments throughout the United States. This course examines when to pursue and what your department can do to reduce its liability. |
| A+ | Tactical Communication, Part 2 | 179-0169 | 30 minute video plus course materials | In part two of this series, LETN examines the tactical importance of coding and decoding verbal forms of communication. It is this active form of speaking coupled with active listening that potentially reduces risk for the officer. |
| A+ | Surviving Edged Weapons | 057-4003 | 30 minute video plus course materials | Too often, officers who encounter knives or other cutting or stabbing instruments dismiss them as accessories or tools. Being able to fully appreciate how much damage these kinds of weapons can do could save your life. |
| A+ | CSI: Cartridge Case Ejection Pattern Testing | 160-0013 | 30 minute video plus course materials | This course presents techniques for carrying out cartridge case ejection pattern testing on weapons that eject fired cartridges/shot shells in order to establish shooter location in a shooting incident. There are a number of considerations involved in carrying out this type of testing. |
| A+ | Pistol Protocols: Preparing for Use | 176-2159 | 30 minute video plus course materials | Operational issues regarding the use of high levels of force to control subject violence have never before placed officers in more jeopardy for death or serious injury than they do today. Fully understanding the operational characteristics of the pistol is the core element leading to the effective use of this instrument of subject control. Join us as we establish job-related protocols. |
| A+ | Tactical Patrol: Vehicle Search, Part 1 | 163-0006 | 30 minute video plus course materials | This course is the first of a two-part series on vehicle searches. Part one focuses on three types of vehicle searches: frisk, search incident to arrest, and consent. For each type of search discussed, the legal requirements of the search as well as the permissible scope of the search are discussed. In part two, other types of vehicle searches will be discussed, including plain-view seizures, motor vehicle inventory searches, and motor vehicle searches based on probable cause. |
| A+ | Safety on Traffic Stops | 057-4001 | 30 minute video plus course materials | We all know there is no such thing as a routine traffic stop. In this course, see live footage and hear from an officer who knows this firsthand. |
| A+ | Legal Update: Custodial Interrogation | 165-0010 | 30 minute video plus course materials | In this course, two U.S. Supreme Court decisions involving custodial interrogations are discussed. |
| A+ | Post-Blast Investigation, Part 2: Team Concept and Scene Documentation | 162-0015 | 30 minute video plus course materials | The second part of our series focuses on actual field exercises as officers learn the "ins and outs" of post-blast analysis. Students will "investigate" a wide range of explosives events in an effort to determine what type of explosive was used and what triggered the device. |
| A+ | Weapons of Mass Destruction: What Every Officer Should Know, Part 3: Nuclear and Radiological Weapons | 162-0012 | 30 minute video plus course materials | One generally thinks of ballistic missiles and other expensive weaponry when considering nuclear and radiological weapons. This course is designed to acquaint officers with both small-scale devices based on nuclear explosions (e.g., suitcase nukes) and non-traditional weapons designed to spread radiological materials over wide areas to inflict mass casualty (so-called "dirty bombs"). Officers will become familiar with the potentially devastating effects of both types of devices, including effects on property and human life. |
| A+ | Violent Offenders Analysis, Part 4: Escalation of Violence | 179-0121 | 30 minute video plus course materials | The violent offender usually starts out with mundane fantasies that escalate over time. In this course, SSA Alan Brantley of the FBI National Center for the Analysis of Violent Crimes explains the escalation of violence using case studies to illustrate his points. |
