

SUPPORT**NEW** **Calibre Presents Roll Call: Laser Sighting Systems**

057-1005

A+ Laser sighting systems have changed considerably since their development a decade ago and their use is becoming more widespread in the United States. This course addresses the misconceptions surrounding laser systems and provides a foundation for their appropriate and effective use.

NEW **NHTSA Special****Click It or Ticket/You Drink & Drive. You Lose.**

154-0013

A+ Every year the National Highway Traffic Safety Administration (NHTSA) embarks on two national advertising campaigns. This course highlights two of the 2005 NHTSA videos. "Click It or Ticket" focuses on the need for seat belt enforcement and public awareness, and "You Drink & Drive. You Lose." examines the growing problem of intoxicated drivers and the role law enforcement plays in saving lives.

NEW **HazMat Awareness, Part 2 of 8**

162-0202

A+ This HazMat awareness course is based on curriculum from IFSTA and the University of Kansas's Fire Service Training division. It complies with all required dimensions of the OSHA and EPA. In part two of our series, we discuss the different types of hazardous materials and the ways humans can be exposed to harmful substances. We also discuss possible ignition sources and talk about the clues that first responders should look for during any routine call. We also continue to review the placards that you might encounter on a daily basis.

A+ **GIS: Getting Started**

056-0001

A+ This module outlines the process of implementing a Geographic Information System (GIS), with an emphasis on the planning stage. Learn how to identify your department's unique goals and obstacles related to using a GIS before making any purchasing decisions.

A+ **Digital Crime Hackers, Part 2 of 2**

152-0009

A+ This program builds on the history of hacking to help construct a profile of hackers that differentiates legal hacking, illegal hacking, and unembellished computer crime. These categories help investigators predict, investigate, and understand the criminal actions of suspects without wasting time and resources on the legal actions of hackers.

A+ **Tactical Patrol Vehicle Search, Part 2 of 2**

163-0007

A+ This is the second installment of a two-part series on vehicle searches. This course provides an overview of plain-view seizures, motor vehicle inventory searches, and other vehicle searches such as searches of vehicles involved in accidents and searches of vehicles that have been abandoned.

CLASSIC**A+** **Detecting the Stolen Motor Vehicle**

888-0242

A+ This program is designed to provide the patrol officer with a firm grounding in the basics of detecting stolen vehicles. We'll discuss what to look for while on patrol, the tools of the trade, making the patrol stop, and completing the theft report.

HOMELAND SECURITY**A+** **Emergency Preparedness & WMD Post Blast Investigation, Part 2 of 2**

162-0015

A+ This course introduces you to the "10-man team" concept approach to processing bomb scenes and control and safety issues. A description of the proper methods used to document and collect the evidence at bomb scenes will be discussed.

A+ **Homeland One Awareness Level CIP: Analyzing the Vulnerabilities**

947-1014

A+ Each jurisdiction needs to look seriously at protecting its critical infrastructure. This program will aid the viewer in understanding the third step of Critical Infrastructure Protection process, analyzing vulnerabilities, as outlined by the U.S. Fire Administration. Based on ODP guidelines.
