

NOVEMBER 2008 - TRAINING CALENDAR

		SHOW #	LENGTH	SYNOPSIS
A+	Roll Call: Response to Armed Robbery	057-0407	30 min plus course materials	This course discusses the various types of armed robbery and how each may affect the officers response. Invisible deployment will be explained, as well as its importance for officer safety and response purposes. Various techniques for confronting subjects who have been identified as suspects leaving the scene of a robbery will be explained, as well as how an officer should respond to an armed robbery while off-duty. Procedures for officers to follow if confronted with a hostage situation as a result of an armed robbery are also discussed.
A+	Inside the Breach, Part 1	111-1207	30 min plus course materials	The close quarters environment represents the most common and the most dangerous environment faced by law enforcement; compressed distances, compressed time frames, and rapid decisions are the deadly characteristics of the typical environments faced by patrol officers every day when they make contact with suspects closer than 25 yards. This course is designed to elevate an officer's knowledge, skills, performance, and safety in these situations.
A+	Roll Call: Physiokinetics and Time Framing	057-1207	30 min plus course materials	Physiokinetics is what makes the human body function, specifically in terms of power, balance, and mobility. If we understand what makes people have power in their movements, the ability to keep their balance, and how they use mobility, we can affect their power, balance, and mobility while resisting arrest or actively fighting. The concept of time framing is for every piece of time officers have, offenders have an equal piece of time. Understanding time framing facilitates the officer creating positive time frames while causing the offender to waste or have negative time frames.
A+	Interviewing and Interrogating, Part 4 of 4: Special Populations	160-0905	30 min plus course materials	Interviewing and interrogating special members of the population require extra attention from law enforcement. Whether it is dealing with a language barrier, the mental capacity of the suspect, or a hearing or speech impairment, your department needs to be able to handle any situation that arises. This course examines how you can effectively interview or interrogate these people.
A+	Inside the Breach, Part 2	111-0108	30 min plus course materials	The close-quarters environment represents the most common and the most dangerous environment faced by law enforcement. Compressed distances, compressed time frames, and rapid decisions are the deadly characteristics of the typical environments faced by patrol officers every day when they make contact with suspects closer than 25 yards. This course is designed to provide an understanding of skills needed for maximum performance under the demands of close-quarters situations.
A+	Mobile Meth Labs	057-0805	30 min plus course materials	Methamphetamine production is all the rage, and numerous states are enacting legislation to control precursors for making the drug. That may help in the long run, but today, officers face serious dangers when they come into contact with a meth lab. Dangerous and volatile chemical agents used in meth production can cause both short- and long- term illness and injury. Learn how to minimize unnecessary risks when encountering a meth lab.
A+	Corrections: Prisoner Escort	186-0073	30 min plus course materials	In this course, American Correctional Association President Richard Stalder discusses where corrections has been and where it is going. He says special emphasis must be placed on the treatment and housing of the mentally ill. Also, Captain Gary Klugiewicz of the Milwaukee County Sheriff Department takes us through the steps of a safe prisoner escort. Escorting a prisoner from a cell to a courtroom seems like a simple task at first glance, but dangers await the officer or deputy who does not do it right.
A+	Con Games in Jail/Prisoner Transport	186-0074	30 min plus course materials	In any correctional facility, you are surrounded by con men, and they will try to play you any way they can. Lt. Glenn Revell of the San Diego County, California, Sheriff's Department explains how inmates will try to con you, the dangers of being conned, and how you can keep from being taken in.
A+	Calibre Press Presents Roll Call: Off Hand/On Target	057-4011	30 min plus course materials	The non-dominant hand serves us well in support functions on the range and in the field. However, the dominant hand or arm may be shot or otherwise incapacitated and survival may depend on the developed skills of the non-dominant hand in un-holstering and firing. This lesson looks at the values of developing and strengthening the non-dominant hand in those skills.
A+	Calibre Press Presents Roll Call: Cop Talk Officer Sign Language	057-4012	30 min plus course materials	There are times when officers on the street need to communicate with each other without those around them knowing what they are saying. It could be just a noisy environment that makes talking impossible or it could be relaying information to each other about a dangerous subject. Talking Hands is a system that allows officers to communicate nonverbally using hand signals. Talking Hands is based upon the same signs used by the hearing impaired but tailored to the police world.
A+	Geophysics and Forensic Anthropology	184-0126	30 min plus course materials	When Lori Keidel-Romanek was 5 years old, she secretly witnessed her father burying her mother, Dianne, in a backyard grave, but she was too frightened to tell the police until 29 years later. In this course, a police detective, a geophysicist from Necro Search International, and a forensic anthropologist use ground-penetrating radar to locate the fossilized skeleton--hidden beneath a huge slab of concrete--and a photographic overlay of Dianne's face and skull to identify the remains to within a 99.9 percent certainty.

NOVEMBER 2008 TRAINING CALENDAR

Air times are both A.M. & P.M.				MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY-SUNDAY
EST	CST	MST	PST	3, 10, 17, 24	4, 11, 18, 25	5, 12, 19, 26	6, 13, 20, 27	1-2, 7-9, 14-16, 21-23, 28-30
7:30	6:30	5:30	4:30	Roll Call: Response to Armed Robbery (057-0407)	Inside the Breach, Part 1 (111-1207)	Roll Call: Physiokinetics and Time Framing (057-1207)	Interviewing and Interrogating, Part 4 of 4: Special Populations (160-0905)	Roll Call: Response to Armed Robbery (057-0407)
8:00	7:00	6:00	5:00	Inside the Breach, Part 2 (111-0108)	Mobile Meth Labs (057-0805)	Corrections:Prisoner Escort (186-0073)	Con Games in Jail/Prisoner Transport (186-0074)	Inside the Breach, Part 1 (111-1207)
