

NOVEMBER 2009 - TRAINING CALENDAR

Tested	SHOW TITLE	SHOW #	LENGTH	SYNOPSIS
A+	NEW Mass Casualty Response and the I-4 Pile-Up	111-1109	30 minute video plus course materials	Law enforcement officers are often confronted with motor vehicle crashes in low visibility conditions. Polk County, Florida, responders were recently confronted with a worst case scenario as 70 vehicles collided in zero visibility conditions along a heavily traveled interstate highway. The lessons learned in Polk County will benefit responders nationwide who may face similar situations in their jurisdictions.
A+	Confined Area Survival Tactics, Part 3	176-2171	30 minute video plus course materials	Phil Messina of Modern Warrior joins us to continue our examination of his Confined Area Safety/Survival Tactics program designed to teach you how to "fight in a phone booth." Join us as we look at factors involving available weapons.
A+	Sex Crimes, Part 2: Child Molestation	164-0103	30 minute video plus course materials	In part two of our series on sex crimes, LETN explores the nature and dynamics of child molestation and exploitation. Join us as we ride along with the U.S. Immigration and Customs Enforcement and the Fort Worth, Texas, Police Department to see how these agencies are successfully prosecuting these offenders. We also review the dynamics of these offenses and the tactics used by offenders in order to enlighten the audience about the nature of these types of crimes.
A+	Criminal Profiling, Part 3: Accuracy or Inaccuracies?	164-0003	30 minute video plus course materials	Typically, information presented in the news and entertainment media presents profiling as a highly accurate investigative tool and depicts profilers as modern day "Houdinis." This course examines the myths and facts about criminal profiling and assesses its value as an investigative tool.
A+	Clandestine Drug Labs, Part 1	179-0174	30 minute video plus course materials	Hidden, illegal drug labs produce a significant number of fires each year. Often, particularly in rural areas, the lab is discovered only after a fire occurs. These labs contain many flammable hydrocarbons and volatile organic compounds, making these scenes a hazardous materials incident as well as a fire. In addition, some labs are fitted with improvised explosive devices to deter competitors, firefighters, and law enforcement personnel.
A+	Digital Crime: Single-Scene Seizures	152-0002	30 minute video plus course materials	This course outlines current procedure for searching and seizing evidence from a single location crime scene. It covers search warrants for electronic evidence and details recognition and specific identification of potential electronic evidence. It concludes with documentation, collection, preservation, transportation, and storage of seized evidence
A+	Interview and Interrogation, Part 1 of 4: Effective Interview Techniques	160-0605	30 minute video plus course materials	Interviewing people suspected of committing crimes is a critical and time-intensive activity for a police officer. An officer can ask good, relevant questions, but if he does not take time to listen and interpret the answers, he will not be able to ask the right follow-up questions. Join us as we take an up close look at how you can develop the skills necessary to be an effective interviewer.
A+	Medical Detectives: Forensic Geology and Odontology	184-0122	30 minute video plus course materials	Winnipeg police were both shaken and baffled when the horrifically mutilated body of Shirley Andronowich was discovered near a bar she and her husband had visited. In this course, the RCMP and forensic specialists apply the principles of geology and odontology, along with DNA testing and fingerprinting, to refute her husband's murder confession and convict the real killer.
A+	Officer Dragged	057-0505	30 minute video plus course materials	Working close to motor vehicles every day can lead to complacency. Remember, you are dealing with a 3,000-pound weapon. The driver of that weapon can drag and seriously injure you simply by stepping on the gas. Hear from an officer who survived being dragged and learn how to avoid being dragged yourself.
A+	Terrorism in the Middle East: Understanding Islam	161-0051	30 minute video plus course materials	This course provides an understanding of the broad concept of terrorism as represented in the Middle East. Special attention is given to understanding the historical and cultural development of Islam in Middle East, focusing on the Five Pillars of Islam. This course also explains the difference between Sunni and Shiite traditions and provides tips for professionally handling police encounters with people from the Middle East.
A+	Traffic Stops and Racial Profiling: Police-Citizen Contact	111-0010	30 minute video plus course materials	Traffic stops are among the most common interactions between the public and the police. Unfair and illegal practices, such as discriminatory profiling, can have a major negative impact on the public perception of law enforcement. This series of courses examines the practice of racial profiling as it relates to traffic stops. Part two of six, this course defines legal seizures, the third type of police citizen contact. We take an in-depth look at the requirements of formal arrest, the invocation of the Fourth Amendment, and probable cause. Constitutional and case laws that impact how search and seizures are conducted are also discussed.

NOVEMBER 2009 TRAINING CALENDAR

Air times are both A.M. & P.M.				MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY-SUNDAY
EST	CST	MST	PST	2, 9, 16, 23, 30	3, 10, 17, 24	4, 11, 18, 25	5, 12, 19, 26	1, 6-8, 13-15, 20-22, 27-29
